

Features & Benefits

- Suitable for liquids and gases
- Robust construction
- Adjustable switching differences
- 1/4" BSP connection
- Spade connectors and gland supplied

Technical Overview

The PL-625 range of pressure switches is suitable for use with liquids and gases. The unit has adjustable switching threshold. Reproducibility is $\pm 10\%$ of the switching point. The rugged mechanics are the assurance of high operating reliability, even in the presence of percussions or vibrations.

Specification

Contact system	Changeover contact
Dimensions	98 x 65mm
Electrical rating	6A(3A) @ 250 Vac
Gross Weight (kg)	0.3
Max. operating pressure	1½ x range
Max. test pressure	10 bar
Media	Water. Air and steam (with pigtail siphon)
Operating range	-10 to +80°C
Pressure connection	1/4" BSP male
Protection	IP54
Weight	260g

Technical Specification

Operating range	-10 to +80°C
Weight	260g
Dimensions	98 x 65mm
