

Features & Benefits

- All option outputs are available via BACnet MS/TP or Modbus RTU
- Installation of all sensors is over one twisted pair cable and configuration is simple
- Our Smart Communications sensors offer total environmental sensing in one single space sensors
- Save time and cost on installation through smart connectivity

Technical Overview

This is a concept for total environmental sensing in a single space or plant housing. Each sensor measures a predefined selection of variables. All option outputs are available via BACnet MS/TP or ModBus RT. The databus type is user-selectable. If your application has specific requirements, this sensor can be tailored with a wide range of options. Contact us at sales@sontay.com for information.

Specification

Communication	RS-485 (EIA-485) BACnet MS/TP 9k6 to 78k8bps or auto baud rate detection Modbus RTU 9k6 to 57k6bps selectable parity
Dimensions	115 x 85 x 30mm
Protection	IP30
Supply Voltage	24Vac/dc $\pm 10\%$

Technical Specification

Supply Voltage	24Vac/dc $\pm 10\%$
Dimensions	115 x 85 x 30mm
